SUMMARY

Performance-focused Frontend Engineer with 2+ years of experience building scalable, responsive, and production-grade web applications using React.js, Next.js, and TypeScript. Proven track record of improving page performance by up to 40%, maintaining 90+ Lighthouse scores, and delivering high-quality client projects from concept to deployment. Experienced in reusable component architecture, SEO optimization, accessibility, and translating business requirements into fast, user-centric digital experiences.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux, React Router, Tailwind CSS, shadcn/ui, Vite

Engineering: Component Architecture, State Management, Responsive Design, Accessibility (WCAG), SEO Optimization, Core Web Vitals, Code Splitting, Lazy Loading, Lighthouse Optimization, Cross-Browser Compatibility

Tools: Git, GitHub, Vercel, Netlify, Figma

WORK EXPERIENCE

Frontend Developer

DigiCroz, Remote

Jan 2026 – Present

- Architected reusable React.js and Next.js component systems, reducing feature development effort by 30% across multiple client projects.
- Led frontend development for 4+ production applications, transforming Figma designs into responsive, accessible, and SEO-friendly user interfaces.
- Optimized Core Web Vitals and Lighthouse performance scores above 90 through code splitting, lazy loading, and rendering optimizations.

Freelance Frontend Developer

Remote

November 2024 – Present

- Delivered 5+ production websites and landing pages for founders and businesses, improving average page performance by 40%.
- Built SEO-optimized Next.js applications with semantic HTML, accessibility best practices, and responsive layouts.
- Managed the complete project lifecycle including client communication, development, deployment, and post-launch improvements.

Frontend React.js Developer

Blue Infinity Tech LLP, Ahmedabad

May 2023 – Feb 2024

- Developed React.js and Redux-based features for a university platform serving 500+ daily active users.
- Improved application performance by 40% through code splitting, lazy loading, optimized rendering, and efficient state management.
- Integrated REST APIs with comprehensive error handling and loading states, improving reliability and user experience.

ReactJS Developer Intern

Syslog Infotech Pvt. Ltd., Remote

September 2022 – April 2023

- Developed responsive React applications using React Router and Tailwind CSS for cross-device compatibility.
- Built reusable UI components that reduced code duplication by approximately 25%.

PROJECTS

- **AI Writing Assistant — React.js, Tailwind CSS, shadcn/ui, Groq API, Vercel** - [GitHub](#) / [Live](#)
 - Built an AI-powered writing assistant supporting 8 transformation modes including rewrite, summarize, expand, improve, and tone enhancement.
 - Integrated Groq API through a custom React hook while managing complex state with useReducer and reusable component architecture.
- **PWM Group Website (Next.js, Tailwind CSS)** - [Live](#)
 - Developed and deployed a production website from scratch, improving page speed by 35% through asset optimization and lazy loading.
 - Implemented SEO-friendly semantic markup, accessibility improvements, and responsive layouts to enhance search visibility and user engagement.

EDUCATION

BE, Electronics & Telecommunication

RTM Nagpur University | CGPA: 7.48 | 2015–2019
